

# **BSP - BRAKE, SURFACE, PARTS CLEANER**

#### SECTION 1 - IDENTIFICATION OF THE MATERIAL AND SUPPLIER

**Product Name:** BSP – Brake, Surface, Parts Cleaner

Product Use: Brake and Parts Cleaner
Supplier: Vertex Lubricants NZ
22 Marphona Crescent

Takanini 2105

Phone: 09/640 0004

Email: info@vertexlubricants.co.nz

**Emergency Number:** 0800 764 766 (0800 POISON) National Poison Centre **Issue Date:** 4 September 2024 and is valid for 5 years from this date.

#### **SECTION 2 – HAZARDS IDENTIFICATION**

#### Classification of the product

Considered a hazardous substance according to the Hazardous Substance (Minimum Degrees of Hazard) Regulations NZ. Classified as dangerous goods for transport purposes.

#### **HSNO Classifications:**

3.1B Flammable Liquids: high hazard

6.1E Acutely toxic (aspiration)

6.9B Harmful to human target organs/systems (Single)(Narcotic)

9.1B Toxic to the aquatic environment with long lasting effects

## **GHS Classifications:**

Flammable Liquids Category 2
Aspiration Hazard Category 1

STOT (single exposure) Category 3 (Narcotic)

Aquatic Toxicity (Chronic) Category 2

Signal Words: Danger

#### **Hazard Statements**

H225 Highly flammable liquid and vapour.

H304 May be fatal if swallowed and enters airways.
 H336 May cause drowsiness or dizziness (Narcotic)
 H411 Toxic to aquatic life with long lasting effects

#### **SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS**

Hazardous Ingredients	CAS No.	Proportion, % m/m
Naphtha (petroleum) hydrotreated light	64742-49-0	>60
2-Propanol	67-63-0	<10
Other non-hazardous ingredients	-	To 100%

The information contained in this Product Data Sheet is accurate at the time of printing and is subject to change without prior notice.

#### **SECTION 4 – FIRST AID MEASURES**

If medical advice is needed, have product container or label at hand.

If exposed or if you feel unwell: Call a POISON CENTRE or doctor.

Eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

to do. Continue rinsing. If eye irritation persists: Get to hospital or doctor without delay.

**Skin contact:** IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice. **Inhalation:** IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for

breathing. If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.

Ingestion: IF SWALLOWED: Immediately call a POISON CENTRE or doctor. Do NOT induce vomiting. Obtain

immediate medical attention.

Notes to physician: Treat symptomatically and supportively. No specific antidote.

#### **SECTION 5 – FIRE FIGHTING MEASURES**

**General fire** 

Extremely flammable liquid.

hazards:

Specific hazards: Containers can build up pressure if exposed to heat and/or fire and may explode. Vapours may form

an explosive mixture with air. Vapours can travel to a source of ignition and flash back. Contents may

float and be re-ignited on surface water.

Further advice: On burning may emit toxic fumes including those of carbon monoxide and carbon dioxide. Fire fighters

to wear self-contained breathing apparatus if risk of exposure to products of combustion. Use water

spray to keep fire-exposed containers cool.

**Extinguishing** 

For small fires, use dry chemical, carbon dioxide, water spray or alcohol-resistant foam.

media:

For large fires: Use water spray, fog, or foam. Use water spray to cool fire-exposed containers. Water

may be ineffective. Do not discharge extinguishing water into the aquatic environment.

Do NOT use straight streams of water.

Protective

Firefighters must use standard protective equipment including flame retardant coat, helmet with face

equipment: shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Firefighting instructions:

In the event of fire, cool containers with water spray to prevent vapour pressure build up. Move containers from fire area if you can do so without risk. Runoff can cause environmental damage.

Hazchem Code: 3YE

#### **SECTION 6 – ACCIDENTAL RELEASE MEASURES**

Minor spills: Clean up all spills immediately. Remove all sources of ignition. If safe to do so, damaged containers

should be placed in a container outdoors, away from all ignition sources. Undamaged containers should

be gathered and stowed safely. Provide ventilation. Collect spillage.

Major spills: Evacuate the spill area. Call the Fire Brigade. Remove all sources of ignition. If safe to do so, prevent

spillage from entering drains or water courses. If material enters drains, advise emergency services. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers for

disposal.

#### SECTION 7 - HANDLING AND STORAGE

Handling

Read product label before use. Keep out of reach of children.

Precautions:

Vertex Lubricants

Tel: 0800 353 645

 $\textbf{Email:} \underline{info@vertexlubricants.co.nz}$ 

This product is highly flammable. Keep away from heat and open flames/hot surfaces. No smoking. Do not use near an open flame or other ignition source. Use in a well-ventilated area. Avoid breathing vapours. Wash hands with soap and water after handling. Avoid release to the environment.

Storage: Protect from sunlight. Store in a well-ventilated, cool, dry place. Keep away from heat, sparks and

flames. Keep container tightly closed. Store locked up.

#### SECTION 8 - EXPOSURE CONTROLS AND PEROSNAL PROTECTION

Exposure Limits: No value assigned for product. Exposure standards for constituents (NZ WES);

Material	TWA, mg/m <sup>3</sup>	STEL, mg/m <sup>3</sup>
Naphtha (petroleum) hydrotreated light	1,200	1,600
2-Propanol	983	1,230

Additional Wash hands before eating, drinking and smoking.

Information:

Engineering Controls: No controls required when handling small quantities. Use with adequate ventilation. General exhaust

is adequate under normal operating conditions. Ventilation, lighting and electrical equipment should be explosion-resistant. Use only non-sparking tools. Take precautionary measures against static

discharge.

Protective Equipment: In an industrial environment: chemical gloves, safety glasses, chemical goggles and protective gloves

are recommended. Wash contaminated clothing before reuse. Contaminated work clothing should

not be allowed out of the workplace.

In case of inadequate ventilation wear respiratory protection. If TWA is exceeded, wear an approved

respirator with a type A filter.

#### **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

Physical state: Clear colourless liquid

pH: Not applicable
Vapour Density: > 1 (Air =1)
Vapour Pressure, kPa: About 9
Boiling Point, °C: 80 - 110

Melting Point, °C: Not applicable. Specific Gravity: About 0.72

Flash Point, °C: -15

Explosion Limit, % v/v: LEL 1.0% UEL 7.0%

Autoignition Temp, °C: > 200

Solubility: Not soluble in water.

#### **SECTION 10 – STABILITY AND REACTIVITY**

Stability: Stable under normal conditions of use. Not reactive. Avoid oxidisers. Avoid elevated temperatures.

#### SECTION 11 - TOXICOLOGICAL INFORMATION

Basis for Assessment: Information given is based on product testing, and/or similar products, and/or components.

www.vertexlubricants.co.nz

Vertex Lubricants Tel: 0800 353 645 Email: info@vertexlubricants.co.nz

Acute Oral Toxicity:  $LD_{50}$  estimated to be > 5,000 mg/kg (based on component mixture). Acute Dermal Toxicity:  $LD_{50}$  estimated to be > 2,000 mg/kg (based on component mixture).

Acute Inhalation LC<sub>50</sub> estimated to be > 20 mg/L, Rat 4 hour (based on component mixture).

Toxicity: High concentrations may cause drowsiness or dizziness and lead to central nervous system

depression resulting in headaches and nausea.

Skin Irritation: Prolonged/repeated contact may cause defatting of the skin which can lead to dermatitis. Avoid

contact with skin.

Eye Irritation: May be irritating to the eye. Contact with eyes is irritating causing short term discomfort.

Respiratory Irritation: Inhalation of vapours or mists may cause irritation to the respiratory system

Sensitisation: Not expected to be a contact or respiratory sensitiser.

Mutagenicity: Not expected to be mutagenic Carcinogenicity: Not expected to be carcinogenic.

Reproductive Toxicity: Not expected to be a human reproductive toxicant Effects on or via

Not expected to be toxic effects on or vis lactation.

lactation:

Specific Target Organ

Toxicity:

Harmful to human target organs or systems.

STOT (Narcotic) Prolonged inhalation of vapours may be narcotic and cause drowsiness or dizziness.

Repeated Dose Toxicity: Central nervous system: repeated exposure may affect the nervous system. Prolonged skin

contact with product may result in irritant contact dermatitis.

Additional Information: None of the components present in this material at concentrations equal to or greater than 0.1%

are listed by IARC, NTP, OSHA or ACGIH as being carcinogens.

#### **SECTION 12 – ECOLOGICAL INFORMATION**

Ecotoxicity: Product is harmful to aquatic organisms with long lasting effects. Experimental data on the

finished product are not available.

Mobility: Floats on water. Volatile. Some components show low soil mobility.

Persistence

/degradability:

Bioaccumulation

Potential:

Some components may be persistent.

Has the potential to bioaccumulate.

# **SECTION 13 – DISPOSAL CONSIDERATION**

Material Disposal: Product wastes are ecotoxic and should be disposed of in accordance with applicable regulations.

Do not dispose into the environment, in drains or in water courses. Waste product should not be allowed to contaminate soil or water. Large quantities should be handled by a suitable disposal

facility. Incineration in an authorised facility is suggested.

Container Disposal: Recycle empty container in an approved recycling stream. Product containers are also considered

wastes of the same class of the contents and should be disposed of in accordance with applicable

regulations.

The information contained in this Product Data Sheet is accurate at the time of printing and is subject to change without prior notice.

#### **SECTION 14 - TRANSPORT INFORMATION**

Transport: Classified as a Dangerous Good for transport purposes

Proper Shipping Name: FLAMMABLE LIQUID, N.O.S

UN Number: 1993

**Dangerous Goods** 

Class:

3

**Transport Labels** 

Class 3 Flammable, Marine Pollutant (Land, Sea and Air)

Required: Land, Sea, Air

Subsidiary Risk: Not applicable

Packing Group: II

Marine Pollutant: Yes

EMS Number F-E, S-D

Limited Quantity: 1 L

DG Segregation: This product is classified as a Dangerous Goods. Please consult the Land Transport Rule:

Dangerous Goods 2005, and NZS 5433:2012 Transport of Dangerous Goods on Land for

information.

#### **SECTION 15 – REGULATORY INFORMATION**

EPA Approval Number: HSR002650 Solvent (Flammable) Group Standard 2020.

Inventory Listing NZIOC (New Zealand Inventory of Chemicals); All components of this product are listed.

SDS regulations This Safety Data Sheet was prepared in accordance with the EPA Hazardous Substances (Safety Data

Sheets) Notice July 2017. (Consolidated 30 September 2022)

**EPA Hsno Controls:** Refer to <a href="www.epa.govt.nz">www.epa.govt.nz</a> for information on Controls.

This substance is to be managed using the conditions specified in an applicable Group Standard.

## **SECTION 16 – OTHER INFORMATION**

Additional Personal Protective Equipment Guidelines: The recommendation for the protective equipment information: contained is provided as a guide only. Factors such as method of application, working

contained is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls

should be considered before final selection of personal protective equipment is made.

 $\textbf{Email:} \underline{info@vertexlubricants.co.nz}$ 

Health effects from exposure: It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that the user will assess the risks and apply control methods where appropriate.
