

HY-CHAIN OIL

PRODUCT DESCRIPTION

Vertex Hy-Chain Oil is a specifically designed and customized oil for lifting chains. Manufactured with semi synthetic base oil with a low tackifier and high EP properties, the product is designed for lubricating all types of industrial lifting. The product is particularly suited to severe conditions where external contamination from dust, dirt, water, etc. is a primary consideration. Vertex Hy-Chain Oil is suitable for use on slide rails, moving equipment, slides, chains, cables, and belts. The product is well suited for conveyors and machine slides / guides requiring a low tack product and other applications requiring an engine oil-based lubricant in place of standard chain lube.

APPLICATIONS & BENEFITS

- Vertex Hy Chain Oil extends the lifetime of chains.
- Gives maximum protection against chain corrosion.
- Insoluble in water, even saline.
- Leaves the lubricant well distributed on the chain.
- Adheres quickly due to the rapid evaporation of the solvent.
- Excellent shear resistance for maximum chain protection.
- Low tack formula limits the attraction of dirt and dust.
- Specifically designed for engine oil applications on lifting chains.
- The solvent used in Vertex Hy-Chain Oil is non-toxic and the propellant does not contain any ozone depleting chemicals.

PACK SIZES AVAILABLE

500 ml Aerosol- 5L - 20L - 200L - 1000L IBC

ADDITIONAL INFORMATION

Directions for use

Apply a thin film of Vertex Hy Chain Oil onto the chain. For the best results apply to a warm chain to assist penetration down into the side plates of the chain.

Designed for New Zealand Conditions | Manufactured from virgin base stocks. For more technical information please contact Vertex Lubricants NZ Technical Dept. +64 9 640 0004. Sheet updated 17 July 2023.
