

INDUSTRIAL CHAIN LUBE

PRODUCT DESCRIPTION

Vertex Industrial Chain Lube is a high viscosity industrial chain lubricant, formulated to lubricate and protect exposed equipment. The product can be used in all weather conditions and is particularly suitable for gear and equipment in wet, steamy, or humid conditions. Special tackifier agents and high mineral base oils ensure the product provides extended lubricating protection of exposed equipment.

APPLICATIONS & BENEFITS

- Vertex Industrial Chain Lube applications covers all industrial, production and manufacturing applications including Marine, Transport, Rural, Construction and Mining areas.
- Vertex Industrial Chain Lube is suitable for exposed equipment such as open gears turntables, slide rails, moving equipment, slides, chains, cables, belts, conveyers, machine slides and guides.
- Vertex Industrial Chain Lube is manufactured from a high mineral base oil with selected added tackifiers, and evaporating agents. Vertex Industrial Chain Lube is designed specifically for New Zealand environments.

PACK SIZES AVAILABLE

400ml Aerosol - 20L Pail - 200L Drum - 1000L IBC

ADDITIONAL INFORMATION

Directions for use

Surfaces to be treated should be clean, dry and contaminant free. For cleaning chains or wire rope use Vertex Brake Clean. Shake can thoroughly before use and apply Vertex Industrial Chain Lube evenly on chain or wire rope surface. After the solvent propellant evaporates the product film remaining will have the correct consistency and thickness.

Designed for New Zealand Conditions | Manufactured from virgin base stocks. For more technical information please contact Vertex Lubricants NZ Technical Dept. +64 9 640 0004. Sheet updated 17 July 2023.
