

### MOTO CHAIN LUBE

#### PRODUCT DESCRIPTION

Vertex Moto Chain Lube is a high-performance moto and bike chain lubricant. Moto Chain Lube is specifically designed for lubricating final drives on chain driven motorcycles. The product is not suitable for use on motorcycles fitted with Kevlar reinforced belt drives. Special adhesion molecules keep the lubricant in place protecting motorcycle chains from wear, rust, and contaminants. The product is manufactured from high viscosity mineral base stocks with the addition of emulsified grease with special tackifiers. Moto Chain Lube includes rapidly evaporating solvent propellants for ease of application and ensures all chain parts are fully covered and lubricated. The propellant evaporates leaving an even film of protecting lubrication, even in the hardest to reach areas.

#### APPLICATIONS & BENEFITS

- Vertex Moto Chain Lube is specifically designed for lubricating all motorcycle driving chains.
- Vertex Moto Chain Lube is perfectly suited for use in all conditions and severe environments, including off-road operations.
- The use of Vertex Moto Chain Lube extends the life of your chain reducing maintenance costs and increasing power transfer performance.
- Vertex Moto Chain Lube is an adhesive lubricant formulated to adhere to all metal surfaces.
- Vertex Moto Chain Lube penetrates chain pins and bushings using a fast-evaporating solvent-based propellant, leaving a thickened long-lasting lubricant.
- Vertex Moto Chain Lube reduces noise, wear, and friction, increasing chain life and maintenance costs.
- Vertex Moto Chain Lube is manufactured from high mineral base oil, and grease in an emulsion with selected added tackifiers, and evaporating agents.
- Vertex Moto Chain Lube is designed specifically for New Zealand environments.

#### PACK SIZES AVAILABLE

500ML Aerosol

#### SPECIFICATIONS

- NZFSA C15 Applicable
- NZFSA C21 Applicable

#### ADDITIONAL INFORMATION

##### Directions for use

Surfaces to be treated should be clean, dry and contaminant free. For cleaning chains or wire rope use Vertex Brake Clean. Shake can thoroughly before use and apply Vertex Moto Chain Lube evenly on chain surface. After the solvent propellant evaporates the product film remaining will have the correct consistency and thickness.

Designed for New Zealand Conditions | Manufactured from virgin base stocks. For more technical information please contact Vertex Lubricants NZ Technical Dept. +64 9 640 0004. Sheet updated 18 July 2023.
