

SOLVENT PARTS WASH

PRODUCT DESCRIPTION

Vertex Solvent Parts Wash is a heavy duty, high strength neat solvent-based parts wash. Vertex Solvent Parts Wash is primarily used for the cleaning of parts in dedicated parts wash baths or can be applied directly and wiped off to remove surface contaminants. Vertex Solvent Parts Wash has been designed to outperform conventional mineral spirit-based solvents by quickly removing oil, grease and grime from metals, most plastics, and painted surfaces. The product is designed to be used and cannot be diluted with water.

APPLICATIONS & BENEFITS

- Suitable for use in parts wash baths
- Can be applied neat to parts and wiped off to remove surface contaminants.
- Vertex Solvent Parts Wash is a cost-effective neat solution for generic cleaning of all parts.
- Vertex Solvent Parts Wash has been developed to outperform conventional mineral spirit-based solvents.
- Vertex Solvent Parts Wash quickly removes oil, grease and grime from metals, most plastics, and painted surfaces.
- Leaves no residue - perfect for parts that will be painted.
- Long lasting - resists saturation from contaminants
- The product cannot be diluted with water.
