

WIRE ROPE LUBE

PRODUCT DESCRIPTION

Vertex Wire Rope Lube is a CFC free special lubricant that provides protection to open gear and wire rope systems. Wire Rope Lube is a Molybdenum based lubricant combined with a blend of high viscosity index synthetic oils, rust, and oxidation inhibitors, selected extreme pressure additives, tackifier with an enhanced thickener system. The product is suitable for use in wire ropes, chains, lubricating hoists, ring gears, rail pulleys and open gears rotating at low speed and high power. Suitable for use in Ski lifts and all applications requiring high weather resistance.

APPLICATIONS & BENEFITS

- Heavy duty formula.
- Multi-Purpose use.
- CFC free (ozone friendly)
- Maintains effective lubrication at high, low, and fluctuating temperatures due to superior stable viscosity over a wide temperature range.
- Effective water, dirt, and dust repellent.
- Weather resistant maintaining superior lubrication even in the presence of wind, rain, dust and or snow.
- High quality tackifiers keep the product in place maintaining protection where it is needed.
- The high extreme pressure properties prevent the scoring and scuffing of gear surfaces.
- Excellent rust and corrosion resistance.
- Contains >3% Molybdenum Disulfide.

PACK SIZES AVAILABLE

500 ml Aerosol

ADDITIONAL INFORMATION

Directions for use

Shake aerosol can before use. Apply light spray and allow product to penetrate. Thickness of spray coating will depend on the application.

Designed for New Zealand Conditions | Manufactured from virgin base stocks. For more technical information please contact Vertex Lubricants NZ Technical Dept. +64 9 640 0004. Sheet updated 17 July 2023.
