

TRANSGEAR 4 HP 80W-90

PRODUCT DESCRIPTION

Transgear 4 HP 80W-90 is a multi-purpose gear lubricant specialty formulated to meet the unique requirements of API GL-4 service. Transgear 4 HP 80W-90 is blended from selected base stocks and extreme pressure additives that produce a lubricant designed for use in hypoid differentials and some manual transmissions. The product is formulated utilizing sulphur phosphorus GL-4 chemistry and contains foam suppressants in addition to corrosion inhibitors designed to protect bronze alloys. The result is a lubricant, which resists the formation of varnish deposits on synchronizer components thus assuring long, trouble free operation.

APPLICATIONS & BENEFITS

- Extreme pressure additives ensure protection of gears under heavy operating conditions.
- Suitable for hypoid differentials requiring a GL-4 Extreme Pressure 80W-90 Gear Oil.
- Suitable for use in manual transmissions requiring an 80W-90 Gear Oil.
